Letting your properties, made easy with ePropertyFile

ePropertyFile is packed with features, and works on every device. Currently, ePropertyFile offers the following:

Online Statements

Check when rent is paid or when any maintenance charges have occurred, 24/7. Online statements are in addition to paper statements and can be customized to any date range.

Certificate Notifications

Helps ensure Gas Safety and Energy Performance Certificates are up to date. ePropertyFile will show you what certificates are coming up for renewal.

Tenant Details

View past, present and upcoming tenancies easily online. Check start and end dates as well as break dates and deposit registration details. ePropertyFile will show you a complete history of all tenancies for each property.

Deposit Registration

Landlords can keep track of all their deposits. Certain deposits must be registered with a government authorised tenancy deposit protection scheme. ePropertyFile will give landlords full deposit information for them to track their money.

Download Accounts

No longer do you need to wait to receive paper statements. Every month, ePropertyFile will make a downloadable PDF available for them to print, email or store for their own records.

Direct Contact

You will be allocated a specific point of contact to handle each of their rental properties. What's more, if your contact is unavailable ePropertyFile will provide the details of the office managing your property.

Grows With Your Rental Portfolio

Easily manage all your rental properties in one place. ePropertyFile supports property portfolios so you can keep track of all your rental investments.
