Utilities Allowance Schedule

Allowances are based on the number of occupiers at the Property and the type of utility provision. The monthly figures set out in this schedule are not fixed monthly limits and are provided solely for the purpose of calculating a total allowance for the tenancy period using seasonal weighting. The total allowance for the tenancy is the sum of the apportioned monthly figures for the relevant period and this total forms the contractual limit. Usage is not assessed on a strict monthly basis. However, any usage exceeding the total allowance for the tenancy period will be chargeable to the Tenants. The calculation of the total allowance using this schedule is final and not subject to adjustment.

Where the number of Tenants is not shown in the table, an additional annual allowance will apply per Tenant as follows: Gas 3000 kWh, Electricity 1000 kWh, Water 20 m³. In properties without a gas supply, the electricity allowance will be applied at twice this rate. Any additional allowance will be apportioned in accordance with this schedule, including its seasonal apportionment.
